**Military Intelligence Professionals**

# Tech Data

Weapons Ranges

Ammunition Characteristics

Range of Vehicles

Electronic OB used by SIGINT  
Collectors Includes:

- \*Communications emitters
- \*Non-Comm emitters

---

**Military Intelligence Professionals**

# Misc. Data

Other useful information may include:

- \*Code names
- \*Unit history
- \*Uniforms
- \*Personalities

# Doctrinal Templates

Depicts how the enemy would like to fight if not restricted by terrain.

**Military Intelligence Professionals**

# Doctrinal Templates

Include at a Minimum:

- \* Normal organization for combat
- \* Typical supporting elements available from higher
- \* Frontages, depths, and boundaries
- \* Engagement areas, objective depths
- \* ~~Weapon Range Fans~~

**Military Intelligence Professionals**

---

# Doctrinal Templates

Examples include:

- \*Movement to contact
- \*Breakthrough
- \*Pursuit
- \*Defense
- \*Retrograde
- \*River crossings

---

# Doctrinal Templates

Help you:

- \*Confirm suspected enemy locations
- \*ID gaps in OB holdings
- \*Determine boundaries
- \*ID doctrinal deviations

---

**Military Intelligence Professionals**

# High Value Targets

Assets that the enemy commander requires for the successful completion of his mission.

Don't confuse with High Payoff Targets:

Assets whose loss to the threat will contribute to friendly forces' **SUCCESS**

**Military Intelligence Professionals**

Step 3: Evaluate the Threat

**Desired End Effect**

**KNOW THE  
ENEMY!**

**Military Intelligence Professionals**

## Step 3: Evaluate the Threat

# Products Produced

- Threat models:
  - Doctrinal template
  - Identification of HVTs by type
  - Description of preferred tactical options

# IPB

## Step 4

Situation Template  
Event Template  
Event Matrix

# Situation Template

Depicts how the enemy might deploy and operate within the constraints imposed by the weather and terrain

---

**Military Intelligence Professionals**

# Situation Template

MCOO  
+  
Doctrinal  
Template

**Military Intelligence Professionals**

# Situation Template

Consider at a minimum:

- \* Use preferred tactics and doctrine
- \* Are all HVTs/key assets depicted?
- \* Is main effort reflected?

---

**Military Intelligence Professionals**

# Situation Template

**Military Intelligence Professionals**

# Event Template

- \*Depicts locations where critical events and activities are expected to occur and where critical targets will appear.
- \*Consists of Time Phase Lines (TPLs) and Named Areas of Interest (NAIs).
- \*One Event Template covers all Enemy COAs

# Named Area of Interest

- Geographical area where information that will satisfy a specific information requirement can be collected
- Point or area, generally along an AA or MC, where activity (or lack thereof) will confirm or deny a particular COA

• Should be linked to a **PIR**

**Military Intelligence Professionals**

• Point and Area NAIs (most

# Time Phase Lines (TPL)

- \*Lines that provide a graphic means of comparing the enemy's mobility along avenues of approach.
- \*Adjusted for terrain and actual combat movement.
- \*Assist in tracking the enemy and directing collection assets.
- \*Based on doctrinal rates of movement.

# Rates of Advance

SITUATION:                      KM PER HOUR:

Unopposed 20 - 30 ideal conds.

5 -10 wx/tn restricts

Covering Force Area 6

Main Battle Area                      2

Rear Area                      5

# Event Template

**Military Intelligence Professionals**

# Event Matrix

- \* Enables the S2 to more precisely correlate what event or activity is expected within a geographical location and what time the event is expected to take place.
- \* Building block for the collection plan

# Event Matrix

NAI	Event	NET Time	NLT Time	Indicates COA	
1	Recon Platoon	H-4	H-2	CO	
2	MIC	H-2	H-1	COA	
2	Tank Co	H-2	H-1	COA	
3	122 How. Btry.	H hour	H+2	CO	
4	Tank Bn	H+2	H+3.5	CO	

**Military Intelligence Professionals**

## Step 4: Determine Threat COAs

# Desired End Effect

- Identify COAs the threat CDR is considering (Enemy COA development is next!)
- Identify areas that will discern which COA the threat CDR has chosen

## Step 4: Determine Threat COAs

# Products Produced

- Situation templates
- Event template
- Event matrix

# Highlights

- \* IPB is a **CONTINUOUS** process
- \* Supports the intelligence portion of the mission analysis brief

\* IPB drives staff planning
